SUPPLEMENTARY INFORMATION: The initial meeting of the Electronic Records Work Group was held on December 19, 1997. At that meeting, the Work Group received a list of issues to be discussed by the Work Group and a list of resources on which the Group should draw in dealing with records disposition issues. Members of the Work Group, consultants to the project, and interested members of the public are asked to recommend additions to, or other changes in the issues to be discussed and the list of resources by January 9, 1998. Following is the list of issues:

Preliminary List of Issues To Be Addressed by the Electronic Records Work Group

The Electronic Records Work Group is charged with developing a practical, implementable approach to replacing the disposition authorities currently provided by GRS 20. This issues list is a "first cut" at identifying those issues

which need to be addressed as part of the project. The list is meant to stimulate discussion and lead to the identification of other issues. Comments on the list and suggestions for additions should be sent to the NARA through its web page at www.nara.gov/records/grs20 or by fax to Michael Miller at 301-713-6850.

Scope of the GRS

1. The GRS, including GRS-20, should cover only administrative records. How should administrative records be defined and how should the programmatic records excluded from GRS-20 be scheduled?

2. How should the GRS fit into the overall spectrum of disposition guidance and authorization? What other approaches are there for developing disposition authorities for records common to several agencies?

3. Is there a role for a specific GRS covering records used to operate and manage central computer facilities and local area networks? If so what should that GRS include?

4. Is there a rationale for not applying the GRS to electronic records of some agencies?

Implementation Issues

5. What implementation options are available to agencies now and for the next 5-7 years and into the future?

6. If records in an application system such as email or word processing are not arranged according to the agency filing system, how does one go about implementing a disposition schedule?

7. Is it possible to schedule the disposition of individual records (documents) in word processing and e-mail applications? If not, what are the alternatives?

8. What approaches are there for replacing the disposition "delete (or destroy) when no longer needed?"

9. Do agency staff have a difficult time understanding and applying GRS 20? If so, what lessons should be applied to developing the replacement?

Dated: December 19, 1997.

Lewis J. Bellardo,

Deputy Archivist of the United States.
